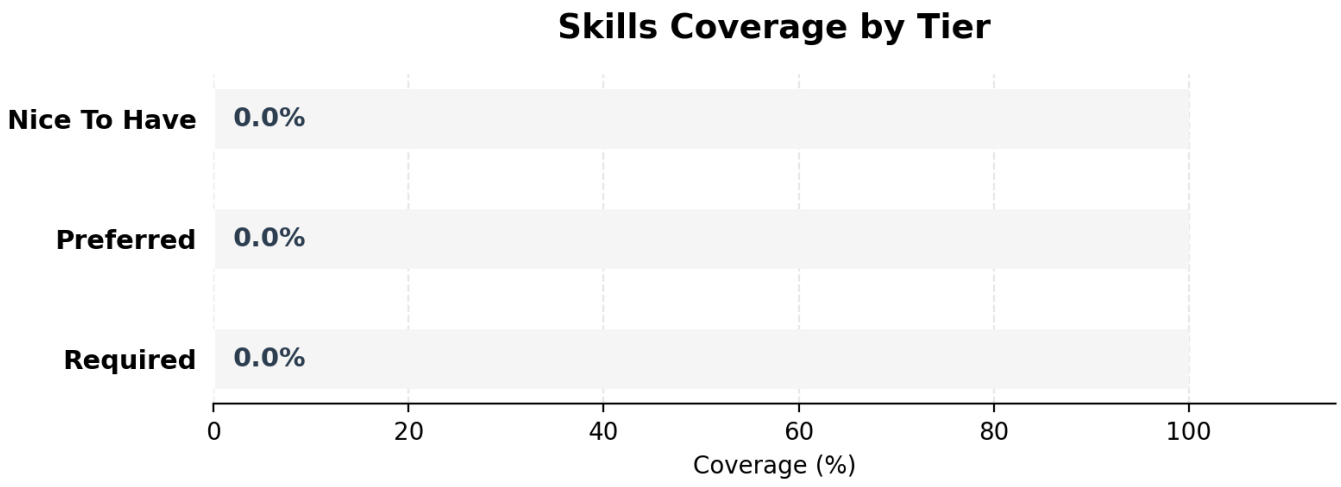
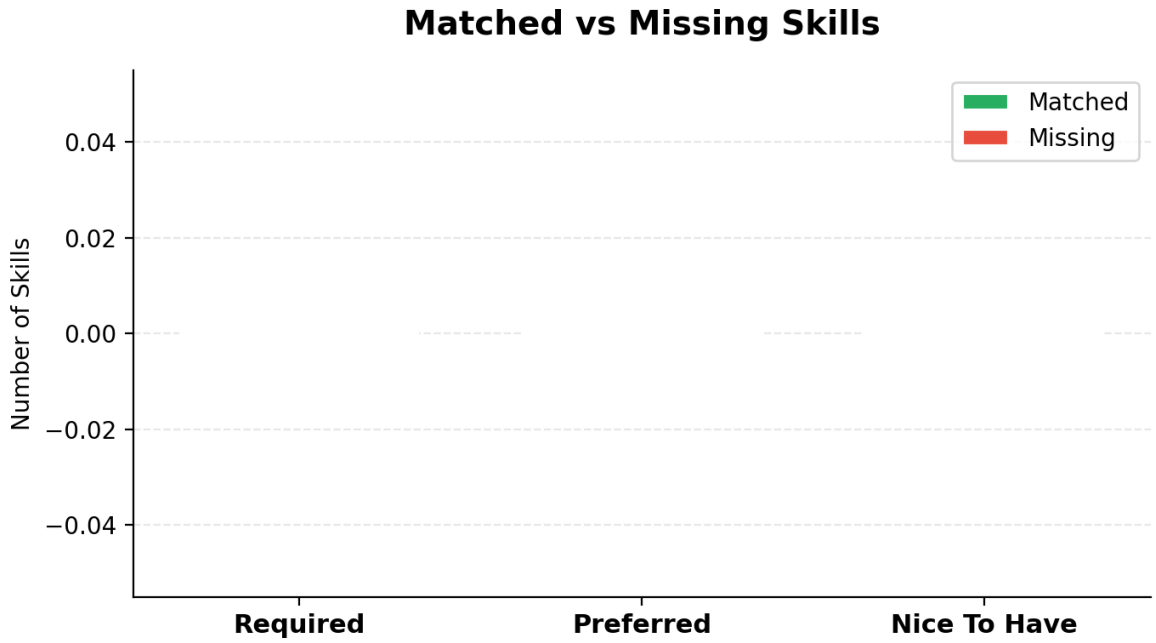
# Skills Match Breakdown

Overall match score: 0%. Below is the detailed breakdown by skill tier.



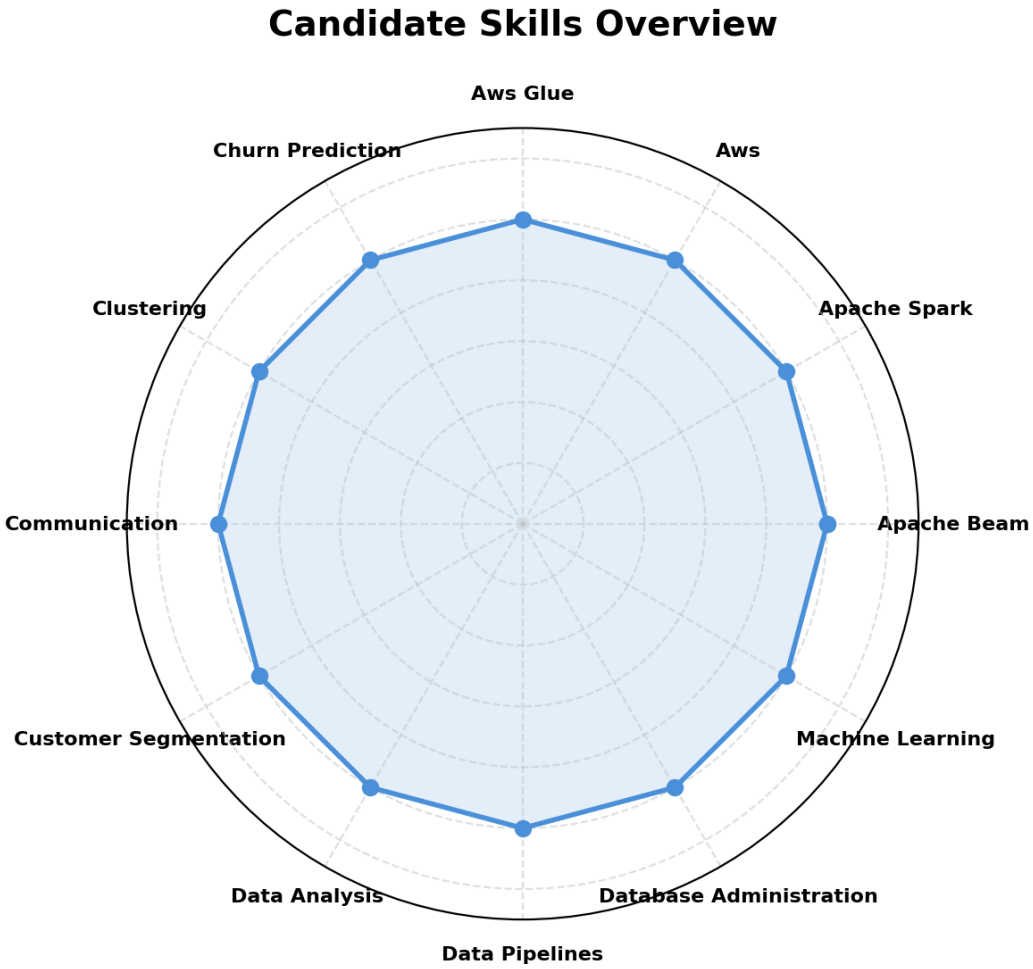


## [+] Matched Skills

## [-] Missing Skills (Gap)

# Candidate Skills Overview

John Doe has 18 identified skills across technical, tools, and soft skills categories.



## Complete Skills Inventory

* Apache Beam
* Apache Spark
* Aws
* Aws Glue
* Churn Prediction
* Clustering
* Communication
* Customer Segmentation
* Data Analysis
* Data Pipelines
* Database Administration
* Machine Learning
* Predictive Models
* Python
* R
* Recommendation Systems
* Sql
* Team Management

# 30-Day Learning Roadmap

## Gap Analysis Summary

* John Doe has a background as a professional but lacks specific technical skills required for a Data Analyst role at Google. The focus will be on acquiring and practicing these technical skills to bridge the gap between his current abilities and the role's requirements.

## 30-Day Learning Roadmap

### Week 1: SQL and Google BigQuery Fundamentals

* Day 1-2: SQL Basics - [Complete SQLZoo's SQL Tutorial, practice basic queries]
* Day 3-5: Intermediate SQL - [Follow along with Mode Analytics' SQL Tutorial, practice complex queries]
* Day 6-7: [Hands-on project: Analyze a dataset using SQL, create a simple report]

### Week 2: Data Visualization with Looker and Tableau

* Day 8-10: Looker Basics - [Complete Looker's free training courses, create simple dashboards]
* Day 11-14: Tableau Basics - [Follow along with Tableau's free training videos, create visualizations]

### Week 3: Google Analytics and Python/R for Data Analysis

* Day 15-18: Google Analytics - [Complete Google Analytics Academy's free courses, practice with a demo account]
* Day 19-22: Python/R Basics - [Complete DataCamp's Python or R courses for data analysis]

### Week 4: Integration and Practical Application

* Day 23-25: [Work on a comprehensive project integrating SQL, Google BigQuery, and data visualization]
* Day 26-28: [Practice Google Analytics with real-world scenarios, create reports and dashboards]
* Day 29-30: [Review and refine projects, prepare a portfolio showcasing your new skills]

## Milestones & Success Metrics

* End of Week 1: [Complete SQLZoo and Mode Analytics tutorials, successfully analyze a dataset]
* End of Week 2: [Complete Looker and Tableau training, create at least 3 dashboards/visualizations]
* End of Week 3: [Complete Google Analytics and Python/R courses, create at least 2 data analysis projects]
* End of Week 4: [Complete a comprehensive project integrating all skills, prepare a portfolio]

## Recommended Resources

* SQL: SQLZoo, Mode Analytics SQL Tutorial
* Google BigQuery: Google BigQuery Documentation, Coursera's Google BigQuery for Data Analysis
* Data Visualization: Looker's free training, Tableau's free training videos
* Google Analytics: Google Analytics Academy
* Python/R: DataCamp's Python or R courses for data analysis

## Daily Time Commitment

* Suggested hours per day: 3-4 hours
* Optimal schedule: Morning (2 hours) and evening (1-2 hours) to allow for practice and review
* Please provide the specific skills required for the target role and the candidate's existing skills so I can tailor the roadmap accordingly.
